## CREATING A GOOD BEDTIME ROUTINE

A bedtime routine is important in getting a good night's sleep. A routine helps to support children's body clock and aid relaxation. Consistency is key, sometimes sleep patterns may get worse before they get better. It is not uncommon to think that a new routine isn't working but it is important to stick to it for at least two weeks in order to see results.

Here are some helpful tips to create a good routine:

- Take some time to plan your routine and write it down. Work out what time it will start, this should be an hour before your child goes to sleep. Display the new routine somewhere where everybody in the home can follow it.

# Our school uniform.

This is our PE kit.

This is what the tables look like when we get changed for PE! PLEASE label everything. One blue jumper looks very much like another.

Please can you send in a pair of NAMED wellington boots.

School lunches. The children can choose from 5 options and get to sit in the hall to eat their lunch. Packed lunches eat in the classroom.

Please send your child with a NAMED water bottle everyday.

# Our new outside area!

Our fabulous PTFA have purchased some amazing things for our school! Please consider joining as they really need new members.

# Parent workshops

We are pleased to be able to invite you to a workshop where we explain how we teach the children to read, write and explain all the areas of the maths curriculum that we cover in Reception. We explain how you can help with your child's learning at home and talk about what you will find in your child's bookbag.

Please sign up tonight when you go to your child's classroom.
